THE DEMOCRATIC BARBECUE

Which More Resembled a Country Picnic—Speaking, Eating and Dancing.

The Democratic barbecue came to pass at the Germantown Fair Grounds on Saturday as announced.

It had been extensively advertised and everybody was told that thousands would attend. In numbers it did not exceed the dimensions of a country picnic.

But three speeches were made. James H. Sallee of this city spoke in the forenoon as a sort of appetizer. Then came the dinner which was the only redeeming feature of the day. It can be said of Democrats that they feed well. Following the custom of Germantown Fair times everybody in the neighborhood brought well-filled baskets, the contents of which were dispensed during the noon hour to the hungry multitude.

After dinner ex-Governor McCreary spent some time in quoting figures, denying facts and making prophecies. When he had finished Congressman Tom Paynter demonstrated his ability to argue the Tariff.

MAYSVILLE ADVANCING.

She Is Now Recognized as a Government Weather and Water Station.

The contract for constructing a river gauge at this place has been awarded to Jacob Wormald, and for graduating and marking the same to W. C. Pelham, C. E.

This is a work of great importance to the river men as well as to our own citizens and is well worth its cost to the towboat interests alone.

"THE LEDGER'S" TRAMP.

What He Sees and Hears That May Interest Our Many Readers.

An old man and his wife, evidently from Lewis county, were walking up Second street this morning, each carrying a watermelon. At Court street the man stumbled and the melon fell from his hands to the sidewalk, completely smashing it. The woman quickly grabbed the core, which was red and tempting, and began eating it complacently, but the man gave the fragments a few kicks expressive of his disgust, picked up a piece or two of the melon, and started off leaving his wife behind several yards while he muttered and growled at her in a manner that signified that he blamed her for the mishap.

Mark Twain once told a story of a minister who had a call in the country. He had to ride nine miles over a rough road. The horse was skittish and the cart had no springs, and the dominie was jolted up until he almost wished he was dead. The horse ran away at last and threw the minister out into the road. When found, he was asked if he was hurt. He said he did not know, but he felt as if his collar bone was broken. If he ever went to hell, he said, he wanted to ride there over that road, because he would be glad when he got there.

A stranger stopping at a certain hotel in this city a few evenings since was taken very suddenly ill, and one of our prominent physicians was summoned. The gentleman imagined he had the cholera and was scared half to death. The physician, after making a diagnosis, placed a thermometer under his arm in order to ascertain the temperature. After removing the same he prescribed a simple remedy and assured the patient that he was not dangerously ill. As he was making his departure the sick man in anxious voice, said: "Doctor, please put that thing under my arm again; it gives me more relief than anything else." The Doctor remained silent for a few seconds and then complied with the request, finding new work for the thermometer.

EDWARD MOORE, aged 33, a workman on the Covington and Newport bridge, fell fifty-four feet to his death.

One night last week a man got off a train at the C. and O. Depot who was considerably under the "influence." He immediately fell into the hands of some loafers who looked with covetous eyes upon his gaudy watch chain and thoughts of a good "touch" doubtless filled their minds. A policeman was sent for by a gentleman who was watching the proceedings and the drunken man was brought to a hotel in safety.

Those who have read an account of the grand naval display in New York on Columbus Day can form some estimate of the celebration which is to be held in Cincinnati October 21st. The Verdict Unanimous.

It pleases the lawyer and his client, too, to have the verdict of the jury unanimous. A great jury composed of the American public has rendered an unanimous verdict on Dr. Hale's Household Cough Cure as a medicine, agreeing that its promises of a speedy cure for coughs, colds and bronchial troubles are always carried out to the letter. This pleasant verdict has not been obtained without great pains taken to make it the best cough cure on the market. Try a bottle when you have a cough or cold and you will belong to the "unanimous" ever after. For sale by Power & Reynolds, Druggists.

Corbett as an Actor.

James J. Corbett appears to have bounded at once into popular favor as an actor. Last week Mr. Corbett appeared in "Gentleman Jack" in six one-night stands to receipts that very nearly reached \$6,000. After another week in the smaller cities Mr. Corbett will make his bow before a great audience at the Haymarket Theater in Chicago, where the manager feels justified in expecting a great rush of business. A few weeks later, shortly after the election, he will appear in New York. It is an odd and significant fact about the career of Mr. Corbett as an actor, up to the present time, that he has drawn the very best of the citizens of every place visited—ladies and gentlemen alike turning out in great crowds to witness the transformation of the champion pugilist into an extremely elegant performer of heroic characters on the stage.

Cholera.

When properly treated as soon as the first symptoms appear, cholera can nearly always be cured. The patient should go immediately to bed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberlain's Colic, Cholera and Diarrhoea Remedy in double doses after each operation of the bowels more than natural. If there is severe pain or cramps, take it in double doses every fifteen minutes until relieved. This Remedy has been used with great success in seven epidemics of dysentery that were almost as severe and dangerous as cholera, and if used as directed a cure is almost certain. Every family should have a 50 cent bottle at hand ready for instant use. After the disease is under control castor oil must be taken to cleanse the system. No other physic or substitute will do in place of castor oil. For sale by Power & Reynolds, Druggists.

A HURRICANE.

Vessel Lost During a Storm on the Gulf.

Sixteen Persons Go Down to a Watery Grave.

Two of the Fatal Steamer's Crew Picked Up While Tossing About on a Piece of a Boat—Several Passengers Were Among the Lost.

NEW ORLEANS, Oct. 17.—The Norwegian steamer *Washington*, Capt. Salvesen, from Boca Del Toro, arrived in port Sunday. She reports on October 10, latitude 14.46 degrees north, longitude 82.26 degrees west, she encountered a hurricane from north-north-west, around to west-south-west, lasting until 2 a. m. October 11, accompanied by mountainous seas. The vessel shipped much water and had boat-covers and movables on deck swept away and cargo slightly damaged. The captain and first officer were injured by being knocked about by the heavy seas and the rolling of the vessel. The Norwegian steamer *Agnes*, Capt. F. Hansen, from Bluefields, Nicaragua, arrived Saturday evening. She reports having on October 10, at 8 p. m., encountered a hurricane from the north-west veering to southwest and south (barometer 29.24), with tremendous seas flooding the steamer's decks fore and aft.

The vessel was "hove to" until 4 a. m. October 11, when the weather moderated, it so reports; at 7 a. m., October 11, sighted what appeared to be a boat in which were two men, the waves at the time being very high; hauled the ship up, and drifting down to them, found they were two sailors clinging to part of a boat; passing them we succeeded in throwing them a line, to which they clung and were drawn aboard in safety. The men belonged to the Honduran schooner *Stranger*, which had capsized at 11 p. m., on October 10. She had thirteen passengers, including seven women and three children. Also a crew of five men, including the captain, all of whom, with the exception of the two rescued by us, were drowned. The schooner was bound from Baliz via Ruanan for Bluefields, registered thirty-two tons; was but a year old and owned in Ruanan. The men rescued are Thos. Connor and Charles Scott.

Among the passengers lost by the capsizing of the schooner *Stranger* were Miss Frances McBride, Ruanan; Mrs. Wright, of Bluefields; Mrs. Thompson, of Ruanan; Miss Fanny Steina, of Ruanan.

ALLOPATHS and HOMEOPATHS. CINCINNATI, Oct. 17.—Many of the physicians of this city are discussing the startling move that was made at the Mississippi Valley Medical association by amending the constitution so as to admit to membership all legally qualified medical practitioners who are in good standing. This is a most radical step on the part of the regular profession, as heretofore their societies would admit to membership none but graduates of an allopathic or regular school of medicine, while now the homeopaths and eclectics will be admitted. Many members of the medical profession are strongly criticizing the movement taken.

At one time he was a prominent iron-master in this state.

MRS. HARRISON SICKING. WASHINGTON, Oct. 17.—The soft, balmy Indian summer weather which Washington is enjoying is proving harmful to the president's invalid wife, for it has a depressing and overrating effect on her and increases the nervousness, from which she suffers greatly.
